

PLASTICS FOR BUTTONS
SINCE 1976

PRODUCTS for GRINDING, SHINING,
FINISHING and DYEING

Rev. 01.06.2016

ABRASIVE MEDIA FOR GRINDING AND POLISHING:

Essential for optimal water processing of metal and plastic/polyester articles.

Available in different sizes and, on demand, different shapes and degrees of abrasiveness.

TRIANGULAR NORMAL CERAMIC:

- ▶ CB 03 TL size 3x3x3 mm
- ▶ CB 04 TL size 4x4x4 mm
- ▶ CB 06 TL size 6x6x6 mm
- ▶ 10x10 N size 10x10x10 mm
- ▶ 15x15 N size 15x15x15 mm

TRIANGULAR GRESS CERAMIC:

- ▶ RF03/03 size 3x3x3 mm
- ▶ RF04/04 size 4x4x4 mm
- ▶ RF06/06 size 6x6x6 mm
- ▶ RF10/10 size 10x10x10 mm

UREA BASED CONES:

- ▶ Color Pink size 15 mm
- ▶ Color Pink size 20 mm
- ▶ Color Pink size 30 mm
- ▶ Color Pink size 35 mm

▶ **PACKAGING:** 25 KG BAG

▶ AVAILABLE IN STOCK, EXCEPT FOR THE PRODUCTS INDICATED WITH (*), AVAILABLE ONLY ON DEMAND.

WOOD STICKS:

Combined with pasta, for high quality grinding and polishing dry processes

- ▶ Beech cubes size 4x4x4 mm
- ▶ Beech sticks size 4x4x6 mm
- ▶ Beech sticks size 4x4x10 mm
- ▶ Beech cubes size 7x7x7 mm
- ▶ Beech cubes size 10x10x10 mm
- ▶ Beech cubes size 12x12x12 mm

- ▶ Beech - diamond
*FR/69 size 10x10x25 mm

- ▶ Birch - steeple
*LCA4X4X25B size 4x4x25 mm

- ▶ Birch - double wedge
*LDC5X5B size 5x5x25 mm

- ▶ Birch - double wedge
*LDC3X3B size 3x3x15 mm

VEGETAL GRAINS FOR FINISHING:

Vegetal grains can be used with tumblers and vibrators for cleaning and polishing processes.

- ▶ Semolina of COROZO
Type 400/1000 (thin)
- ▶ Semolina of COROZO
Type 1000/1700 (thick)
- ▶ Grains of Corn Cobs GM 20

ABRASIVE POWDER:

PUMICE:

Our superior quality pumice is an Amorphous Aluminum Silicate originated from volcanic dust, a perfect and delicate abrasive powder for the finishing of plastics, glass, metal, wood, and leather, **100% natural**.

Pumice is also used for stone-wash treatments, and is suitable for applications in various industrial sectors, such as detergents, cosmetics, paints, abrasives, construction, molding, soil conditioners for agriculture. We have available different granulometries in stock and we are able to provide more sizes of pumice for your specific field of use and special formats such as grains and stones.

SIZES AVAILABLES:

1/0N	pumice powder for grinding	size from 0 to 250 MICRON
2/0N	pumice powder for grinding	size from 0 to 180 MICRON
FFF	white pumice powder for shining	size from 0 to 100 MICRON
NCS5	extra-thin white pumice powder for finishing	size from 0 to 45 MICRON
3/0B	white pumice powder for shining	size from 0 to 150 MICRON
FF	pumice powder	size from 45 to 150 MICRON
03/4N	pumice thin grains	size from 75 to 250 MICRON
8/12BF	pumice grains	
N12-15	pumice stones	

► **PACKAGING:** 25 KG BAG

► **COMPLETE PALLET:** 1050 KG

OTHER POWDER PRODUCTS:

Products used in the processing of the button to help the loading of the button on the machine:

- Talcum Powder
- Potatoes starch powder
- **PACKAGING:** 25 KG BAG

ABRASIVE PASTE FOR TUMBLER PROCESS:

▶ F

SHINING

Grain: ultra – fine

Color: ochre

Abrasive power: low

Effect: shiny surface

Description: shining

Packaging: 20 Kg tin

Description: great product for polyester brightening, for a soft and smooth finish that facilitates the dyeing.

▶ 2

SHINING

Grit: ultra – fine

Color: ochre

Abrasive power: low

Effect: shiny surface

Description: shining

Packaging: 20 Kg tin

Description: brightener product, similar to F, but more greasy.

▶ K5

GRINDING – POLISHING

Grit: ultra – fine

Color: light blue

Abrasive power: very low

Effect: very bright surface

Description: high-level polishing

Packaging: 20 Kg tin

Description: high standards polishing that will further flatten the surface and then shining properly. Suitable for natural materials such as horn and Corozo.

▶ BP127

SHINING

Grit: ultra - fine

Color: white

Abrasive power: very low

Effect: shiny surface

Description: polishing

Packaging: 20 Kg tin

Description: excellent polishing product for use with the sticks in open machines or vibrators. Also suitable for natural materials and methacrylates.

▶ M114

SHINING

Grit: ultra - fine

Color: white

Abrasive power: very low

Effect: very bright surface

Description: polishing

Packaging: 20 Kg tin

Description: excellent for polishing natural materials such as horn, Corozo, coconut, mother of pearl, etc.

▶ KA

GRINDING - POLISHING

Grit: fine

Color: ochre

Abrasive power: medium - low

Effect: shiny surface

Description: sanding and polishing

Packaging: 20 Kg tin

Description: pasta with smoothing effect on the bottom of the treated articles, and shining.

► **PO**

ROUGHING

Grit: thick

Color: brown - light

Abrasive power: very aggressive

Effect: matt uniform surface

Description: aggressive pasta able to leave a smooth surface

Packaging: 20 Kg tin

Description: aggressive pasta that, through its abrasive combination, is able to remove deep marks and round pieces, leaving a regular and homogeneous surface. Suitable for the grinding of natural materials.

► **CM**

METAL POLISHING

Grit: ultra - fine

Color: dark yellow

Abrasive power: very low

Effect: shiny surface

Description: polishing

Packaging: 20 kg tin

Description: excellent for polishing metal, to use with the sticks in open machines or vibrators.

PASTE IN BLOCK, FOR MANUAL POLISHING AND GRINDING:

► **VENTIL/6000**

PASTA BLOCK FOR GRINDING

Grit: thick

Color: gray - light

Abrasive power: high

Effect: matt and homogeneous surface

Description: grinding block to apply on wheels or canvas discs, for the removal of deep scars.

Packaging: block of 1 kg each, Size 20x7x4,5 cm

Description: block paste able to remove deep marks and leave a smooth surface.

► **PL 16/R**

PASTA BLOCK FOR POLISHING

Grit: Fine

Color: Yellow

Abrasive power: low

Effect: shiny surface

Description: polishing block to applied on wheels or canvas disc, to polish.

Packaging: block of 1 kg each, size 20x7x4,5 cm

Description: block paste to polish the plastic items, and remove small imperfections.

LIQUID PRODUCTS, WAXES AND DETERGENTS:

► WAX B12

Effect: polishing

Packaging: 10 Kg cans

Description: emulsion used in wet processes in combination with ceramic stones, to obtain a glossy and brilliant surface.

► SBM682

Effect: antioxidant - brightener

Packaging: 20 Kg cans

Description: prevents the oxidation of the metals items during the water treatment, obtaining a glossy and brilliant surface.

► OLLINC

Effect: cleaning

Packaging: 10 Kg cans

Description: oil used for the cleaning, in combination with vegetal grains.

► EMULSION PASTA F

Effect: emulsifier for pasta

Packaging: 9 Kg Tin

Description: Useful in certain cases to soften the mixture, and improve results.

► PAIPOL/N

Effect: cleaning

Packaging: 30 Kg cans

Description: it solve the problem of veiling created during treatment with pumice. It can be used in solution, or combined with vegetal grains.

► ANTIPOLVERE

Packaging: 10 Kg cans

Description: Specific product for the cleaning of the under-edges of the buttons, particularly useful for matt finishes.

► ULTRA FAST

Color: pale yellow

Effect: cleaning

Packaging: 5 kg cans

Description: super-concentrated detergent for use with ultrasonic cleaning.

Removal of greasy and dry residues, cleaning pastes, different types of oils, light oxidation, by ensuring an accurate and deep cleaning, free of glazes and residue.

We can provide additional types of pasta for specific requests.
Do not hesitate to contact us for further information.

DYESTUFFS FOR BUTTONS AND ACCESSORIES:

► POLYESTER DYEING:

(Showed colors are indicative)

AUXILIARY PRODUCTS:

► DISPERDENTE

Description: used in the dye bath to disperse the color and make uniform dyeing.

► DETERGENTE

Description: used to remove any excess of color after dyeing.

Our dyestuffs comply the Oeko-Tex standard regulation.

► COROZO and HORN DYEING

(Shown colors are indicative)

AUXILIARY PRODUCTS:

► **FISSANTE**

Description: specific product for the fixing of color after dyeing.

► **DECOLORANTE**

Description: allows bleaching the dyeing, and corrects dyeing mistakes.

► **WHITENING**

Description: whitening product to be used in combination with DECOLORANTE.

► **NYLON and GALALITH DYEING**

(Showed colors are indicative)

AUXILIARY PRODUCTS:

► **FISSANTE**

Description: specific product for the fixing of color after dyeing.

► **DECOLORANTE**

Description: allows bleaching the dyeing, and corrects dyeing mistakes.
